

School Profile Overview

Greenways Academy was founded as an alternative for students whose needs are not being met at traditional schools. Some of our students have difficulty excelling in a traditional school setting due to medical conditions, learning disabilities, psychological issues, or unique scheduling needs. Other students enroll to supplement their school's curriculum with courses not offered by their current school. We also partner with schools and school districts around the country.

Our program is developed for primary and secondary level students in grades K-12. We offer core subjects, foreign languages, fine arts, computer science, career planning, and other electives. With our one-on-one teaching for every course, we get to know our students and utilize the strengths of their learning styles and personalities to ensure their success. The flexibility of our program sets us apart from traditional schools. Students excel in an environment that works with their strengths. Upon graduation from Greenways Academy, our students are well prepared for and do well in the college and university environment.

We provide a white glove service approach for our students and schools. This approach goes beyond just meeting basic needs and aims to provide a seamless and exceptional experience for both students and educational institutions.

Our Mission

The mission of Greenways Academy is to motivate, educate, and graduate every student!

Founded Greenways Academy in 1996. Over time, Greenways Academy expanded to offer full time and part-time education of students through various online learning programs.

Greenways encompasses not only our accredited online school but also Greenways School International and our own exclusive content delivery and school management platform, GENIUS. From its early stages, we have strategically integrated digital components into a unified system, catering to the needs of our students and partners. Greenways' programs are meticulously crafted to complement online, blended, or traditional school environments, offering innovative solutions and world-class support.

Greenways Academy, an accredited online school approved by California A-G, Cognia, and WASC, proudly presents Greenways.

Our Students have been accepted to the following universities:

Programs at Greenways

- K-5 School

452	UC A-G Approved Courses
50	NCAA Approved Courses

AP Offerings

AP classes introduce high school learners to rigorous college-level training. Unlike honors classes, AP courses can also provide college credit if students earn sufficiently high scores on the corresponding AP exams. Additionally, these classes can help you bypass certain admission requirements and gain entry into elite colleges across the country.

AP classes run throughout the year, require a considerable amount of after-school studying, and conclude with examinations. AP exams are scored on a scale of 1-5, with scores of 3 and above considered passing grades. Colleges sometimes count scores of 3 and above for college credit, although the most prestigious schools may only consider scores of 4 or 5.

- Advanced Calculus
- Advanced Computer Science
- AP Calculus
- AP Chemistry
- AP English Literature and Composition
- AP Environmental Science
- AP Macroeconomics
- AP Microeconomics
- AP Spanish Language and and Culture
- AP US Government and Politics
- AP US History

Honors Courses

Honors classes cover the same or similar material as regular classes but provide more depth and insight into the subjects at hand. More challenging content means studying takes more time, projects require more work, and tests are more challenging.

As a result, honors students can develop better study habits and more effective test-taking skills. Fast-paced and interactive honors classes can also simulate a college classroom better than regular classes.

- Honors Algebra I
- Honors Algebra II
- Honors Geometry
- Honors Pre-Calculus
- Honors Biology
- Honors Chemistry
- Honors Physics
- Honors Earth Science
- Honors English 9
- Honors English 10
